

Mid-American Brick – Mexico, Missouri (2011)

Summary: Mid America received over \$21 million in financing, including New Markets Tax Credits (NMTC), to re-open the former A.P. Green brick plant in Mexico, MO.

Full Details:

Advantage Capital Partners provided \$9.75 million in financing for the \$21.9 million project to reopen a brick manufacturing plant in Mexico, Mo. Mid America Brick & Structural Clay Products LLC used funding to re-commission and operate the former A.P. Green plant as a face brick manufacturing facility. The plant, which was at one time one of the largest refractory brick manufacturers in the country, will produce nearly 60 million bricks annually and create approximately 80 jobs when it becomes fully operational in 2011.

Impact:

- New investment: \$21.9 million leveraged
- Jobs: 80 jobs in Mexico, Missouri

Congresswoman Vicky Hartzler (R-MO) makes a stop by Mid America Brick in November 2012
