

NEW MARKETS
TAX CREDIT COALITION

MONTANA ORGANIZATIONS ON WHAT THE NEW MARKETS TAX CREDIT MEANS TO THEIR COMMUNITY:

"New Market Tax Credits have supported some of the most urgently needed community-strengthening projects in some of the most economically distressed areas of our region, including our 13 Native American reservations. Financially feasible NMTC-supported projects are creating jobs, fostering community economic self-sufficiency, and improving the health and quality of life for countless residents throughout our region. It is absolutely critical that this high-impact, community-revitalizing program be continued."

-Susan Hay Patrick, Chief Executive Officer, United Way of Missoula County, Missoula, MT

"New Market Tax Credits provided crucial funding to create a crisis center and emergency housing for domestic violence survivors and homeless families in our community. With NMTC, the facility could not have been built and up to 50 families each night would have no where to sleep except in their cars or tents."

-Cindy Weese, Executive Director, YWCA Missoula

"The NMTC allowed us to build a new emergency shelter and soup kitchen for the most vulnerable in our community. Our old facility was a dilapidated mess. Our new building allows us to provide food, shelter, help and hope to all who ask in a dignified facility."

-Amy Allison Thompson, Executive Director, Poverello Center, Inc., Missoula, MT

"The NMTC credit's are one of the only economic development tools in Montana that catalyzes projects that create jobs and critical socio-economic services for our citizens most in need."

-Chris Naumann, Executive Director, Downtown Bozeman Partnership
